## Cooler 38

Its base dimensions are the same as a USA Pallet: 40" x 48"

### Technical features

Built using the latest rotomolding technology as a single piece body structure, made of food contact safe material. The absence of joints makes washing easier.

The handles are built in to avoid any risk of squeezing hands against any external object during the manipulation of the containers.

All metal parts are strong and easy to maintain, they are screwed to metal plates placed between the walls of each container.

The inner walls have grooves which allow air flow even with a full cooler

The door slides up to 270 °

The pallet base can be either stainless or galvanized steel.

Trays can be held in slots which do not overcome the wall, allowing the full use of the inner space of the containers.

The silicon gasket can be removed and replaced.

## Dimensions

- External:** 40" x 48" x 66"  
100 x 120 x 165 cm
- Internal:** 31 1/2" x 40" x 54"  
80,5 x 101,5 x 137 cm
- Capacity:** 1.100 liters or 38 cu.ft
- Weight:** 156 Kg or 344 pounds
- "K" coefficient:** 0,265 W/m<sup>2</sup>

## Accessories

### Ice packs

### Dimensions mm:

31 1/2" x 12 3/4" x h 2"  
( 800 x 320 x H 50 mm)

### Capacity:

4 pcs

### Document holder

### Metal tray

### Pallet base (support)

### Digital thermometer
